

deconex® AD 700

Alkaline additive for stripping solutions

Application

deconex® AD 700 is a liquid additive especially developed for Balzers stripping processes.

Properties

deconex® AD 700 reduces considerably the tendency of over-boiling by stabilising the stripping solution. By binding the solvated cations, it prevents an uncontrollable reaction of the stripping solution.

By binding the solvated cations, it prevents an uncontrollable reaction of the stripping solution.

Ingredients

Corrosion inhibitor, alkalis

Chemical/physical data

pH	1% solution in demineralized water	ca. 12.9
Density	concentrate	1.5 kg/dm ³
Appearance	concentrate	transparent, colourless

Availability

Please ask your local representative about current container sizes.

Containers, screw caps and labels are made of recyclable polyethylene.

Material compatibility

Suitable for:

- HSS
- carbides
- casting 0.7060
- sinter ferrous-metal E00
- construction steel ST37-2 (1.0037)
- other steel tools like 100Cr6, 1.2379 etc

For materials not mentioned please make your own specific compatibility tests or consult Borer Chemie AG.

Additional information

For information concerning safety at work, storage and waste disposal/effluent, please consult the corresponding safety data sheet.
