deconex® High Purity Precision Cleaning Event 2024

15 – 16 October 2024

Borer Competence Center, Zuchwil

Welcome at the Borer Competence Center!

I am delighted to welcome you to our two-day event. Our aim is to provide you with a holistic insight into the world of high purity cleaning – an area that is of central importance for the constantly growing demands of our industries.

This year's programme offers an exciting mix of technical presentations from renowned industry experts, practical live demonstrations and trainings. This combination ensures that you not only acquire theoretical knowledge, but also gain practical insights and directly applicable solutions for your daily cleaning challenges.

We are proud to have created this event as a provider of a comprehensive portfolio of products and services for high purity cleaning. Our expertise in the cleaning of components with the highest purity requirements and our in-depth process knowledge make us a competent partner at your side. The exchange of know-how and expert knowledge is firmly anchored in our company credo, and we are convinced that this event offers an ideal platform for dialogue and networking within our industries.

I wish you two inspiring and insightful days, valuable discussions and many new ideas for your daily work. Let's shape the future of high purity cleaning together!

Massimo Desole

Director Business Unit Industry
Borer Chemie AG
